Event Rentals

Custom Branded Rental Tents & Event Structures

When your brand's reputation is on the line, standard white tents are an underwhelming rental option.

TentCraft's rental program is built for agencies and event marketing teams who need the upsides of renting event infrastructure with the added value of customizing their activation's branding. We offer premium-grade truss structures, semi-permanent frame tents, and event domes, fully brand-able and supported by our in-house team every step of the way.

You're not just renting a tent - you're building a brand experience.

EVENT TRUSS

Lightweight | Quick Assembly | 2-3 Week Turn Time

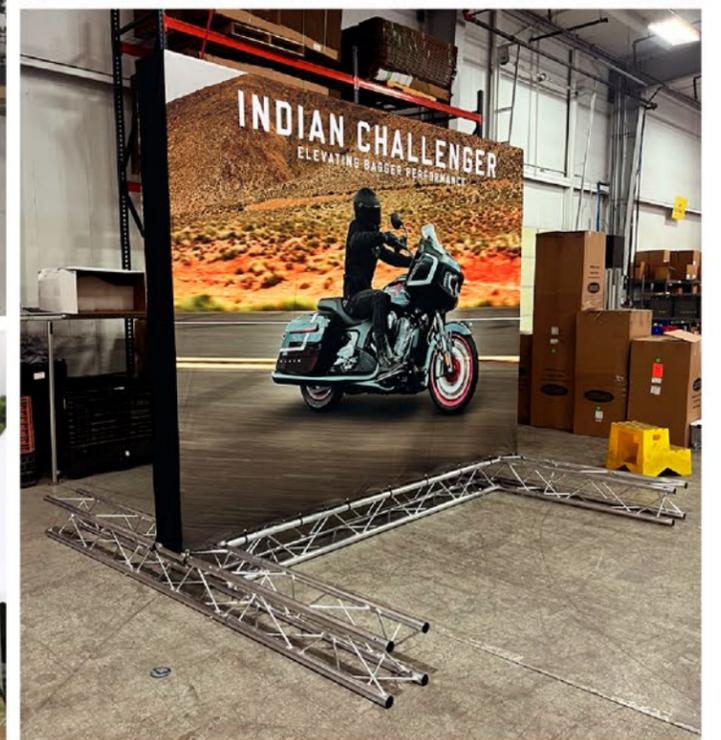

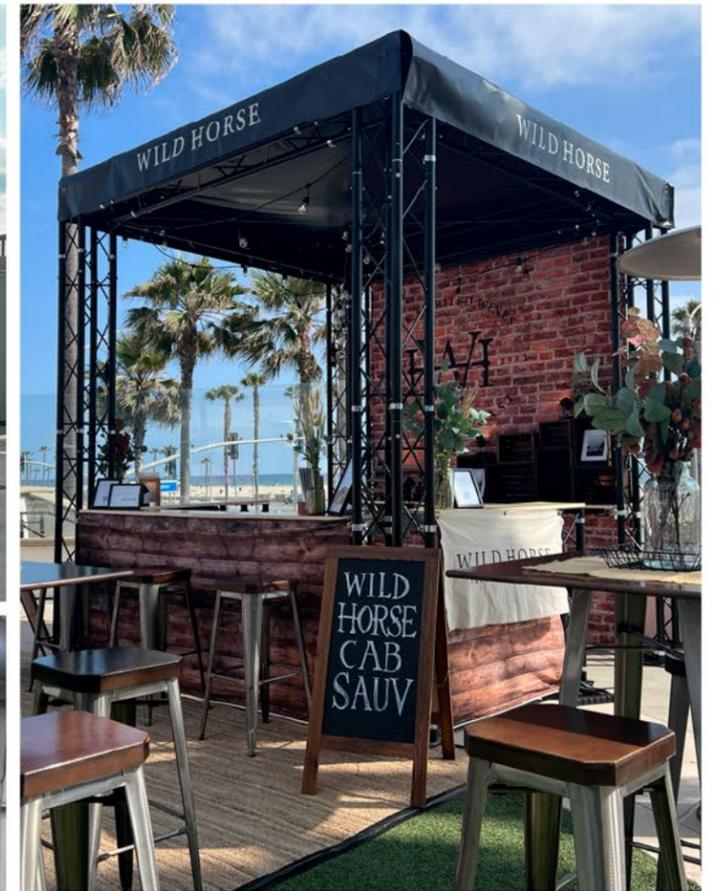

Truss assemblies like giant LEGOS. Smaller, lightweight quickly snap-together to accommodate all sorts of footprint sizes and shapes. Common applications include custom backdrops, event entrances, product demos, indoor/outdoor exhibits, VIP lounges, and more.

TRUSS ACCESSORIES

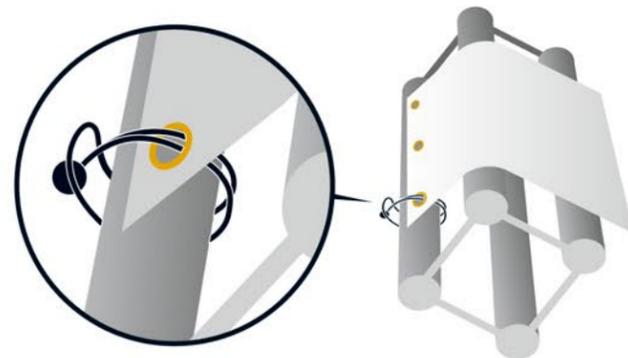

Functional | Unique | Brand Expression | Custom Branding

Whether you're setting up for a trade show, event, or other outdoor gatherings, our truss accessories give you the professional edge you're looking for and solve any logistical hurdles.

Custom Truss Walls

TentCraft prints, cuts and fabricates custom walls to fit your truss structure in almost any way imaginable - no matter the size or shape. We even offer the option to completely cover your frame if you desire. Your custom printed truss walls are framed with grommets, allowing the walls to bungee strap to the structure legs as pictured in the illustration to the right.

Shipping Crates

Our Wood Crates are designed in-house to give your event equipment the protection, organization, and mobility it needs to go from event to event.

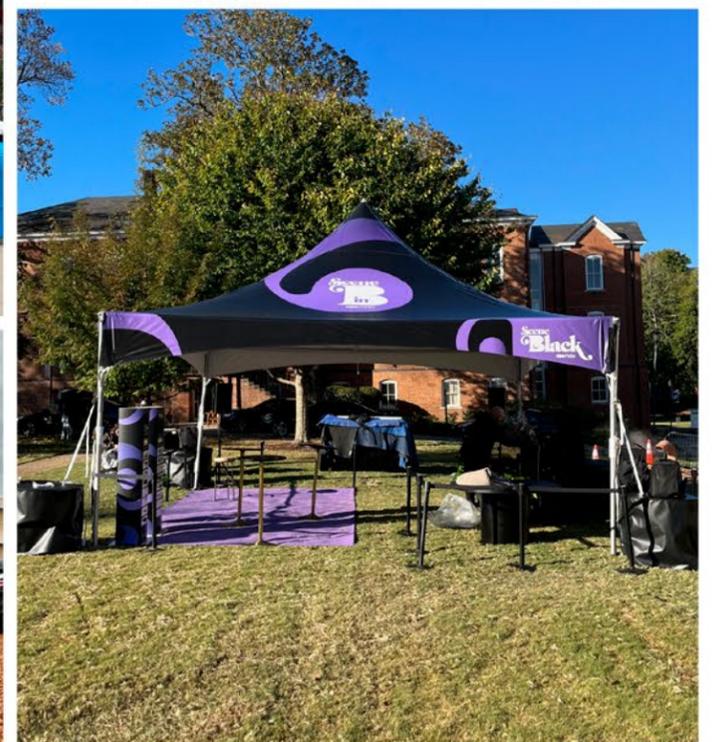

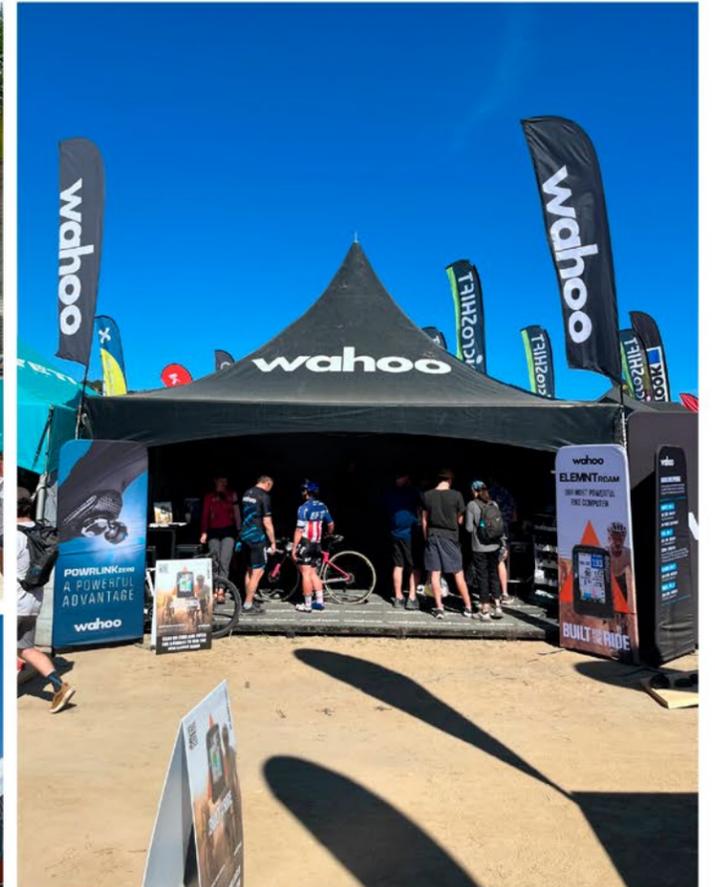

FRAMETENT

Tool-Free, Semi-Permanent Framework | 1 Week Turn Time | 30-45 Minutes Setup Time

Heavy duty, pole-style framework available in the following sizes: 10x10, 10x20, 15x15, 15x30, 20x20, 20x30, 20x40. This framework can be left up for weeks or months at a time, making the frame tent a semi-permanent solution. Ballasting options include stakes, water barrels, and concrete blocks which can be hidden with custom printed covers to create a professional and seamless experience.

FRAMETENT

Footprint & Design Possibilities

GEODESIC EVENT DOME

Tool-Free | Easy Transport | 2 Week Turn Time | 60-90 Minute Setup Time

The geodesic event dome is lighter, easier to transport, and quicker to set-up than a traditional geodesic dome. With 3-way push button connectors, the tool-free geodesic dome is 60% lighter than steel models, making it much easier to transport and assemble. The aluminum frame provides the best strength-to-weight ratio and reduces the number of poles needed to assemble the structure. The entire tool-free geodesic dome breaks down to fit inside of an included transport wagon, making it easy to transport wherever you need to make an impression.

Every GYBE ships with a transportation backpack, hand pump, sand donuts, 4-Guy wires for fastening and a "just-in-case" repair kit.

GYBETENT

Modern Design | 3 Week Turn Time | Quick Setup Time

The GYBE inflatable tent can be set-up by one person in less than five minutes and unlike cheaper inflatable tent models, requires no continuous fan to keep upright. Because these inflatable tents have no rigid frame, the GYBE is also low-weight, needs minimal storage and travels to any event painlessly.

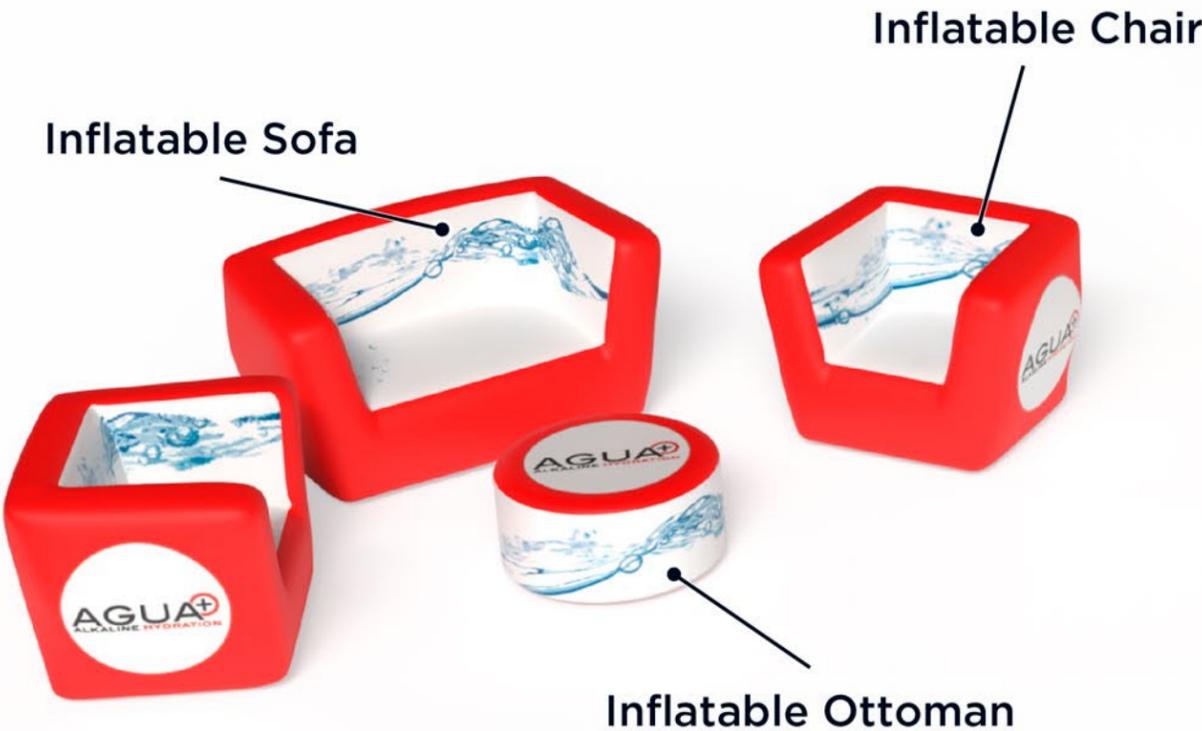

GYBETENT

INFLATABLES

Versatile | Easy Transportation | Quick Setup Time

If you want to easily set up, tear down, and transport your custom marketing assets with minimal people, while standing out from the competition in the process, TentCraft's custom inflatable event assets are the perfect investment. Our quick-deploy inflatables can be setup in the toughest of locations by a single person.

INFLATABLES

MEDIA WALLS

Modular Framework | 5-7 Day Turn Time | Quick Setup Time

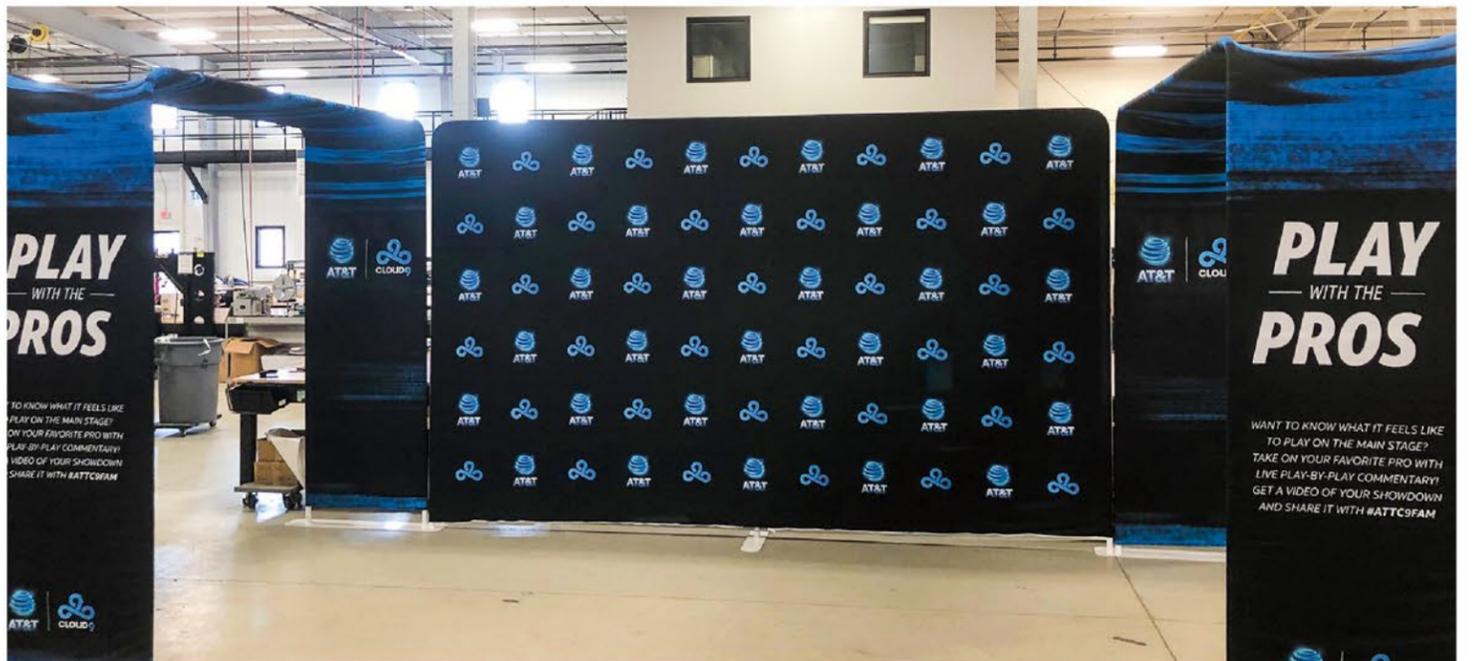

This modular, lightweight framework quickly assembles to create simple backdrops, tunnels or larger displays. Custom designs are printed on our wrinkle-free powerstretch material. We now also offer a separate magnetic backdrop system to securely attach shelves, hooks, and signage using high-powered magnets. Media wall hardware fits in carry bags for easy transport.

SEG | SILICONE EDGE GRAPHICS

Durable Frames | Backlighting Available | Custom Sizing

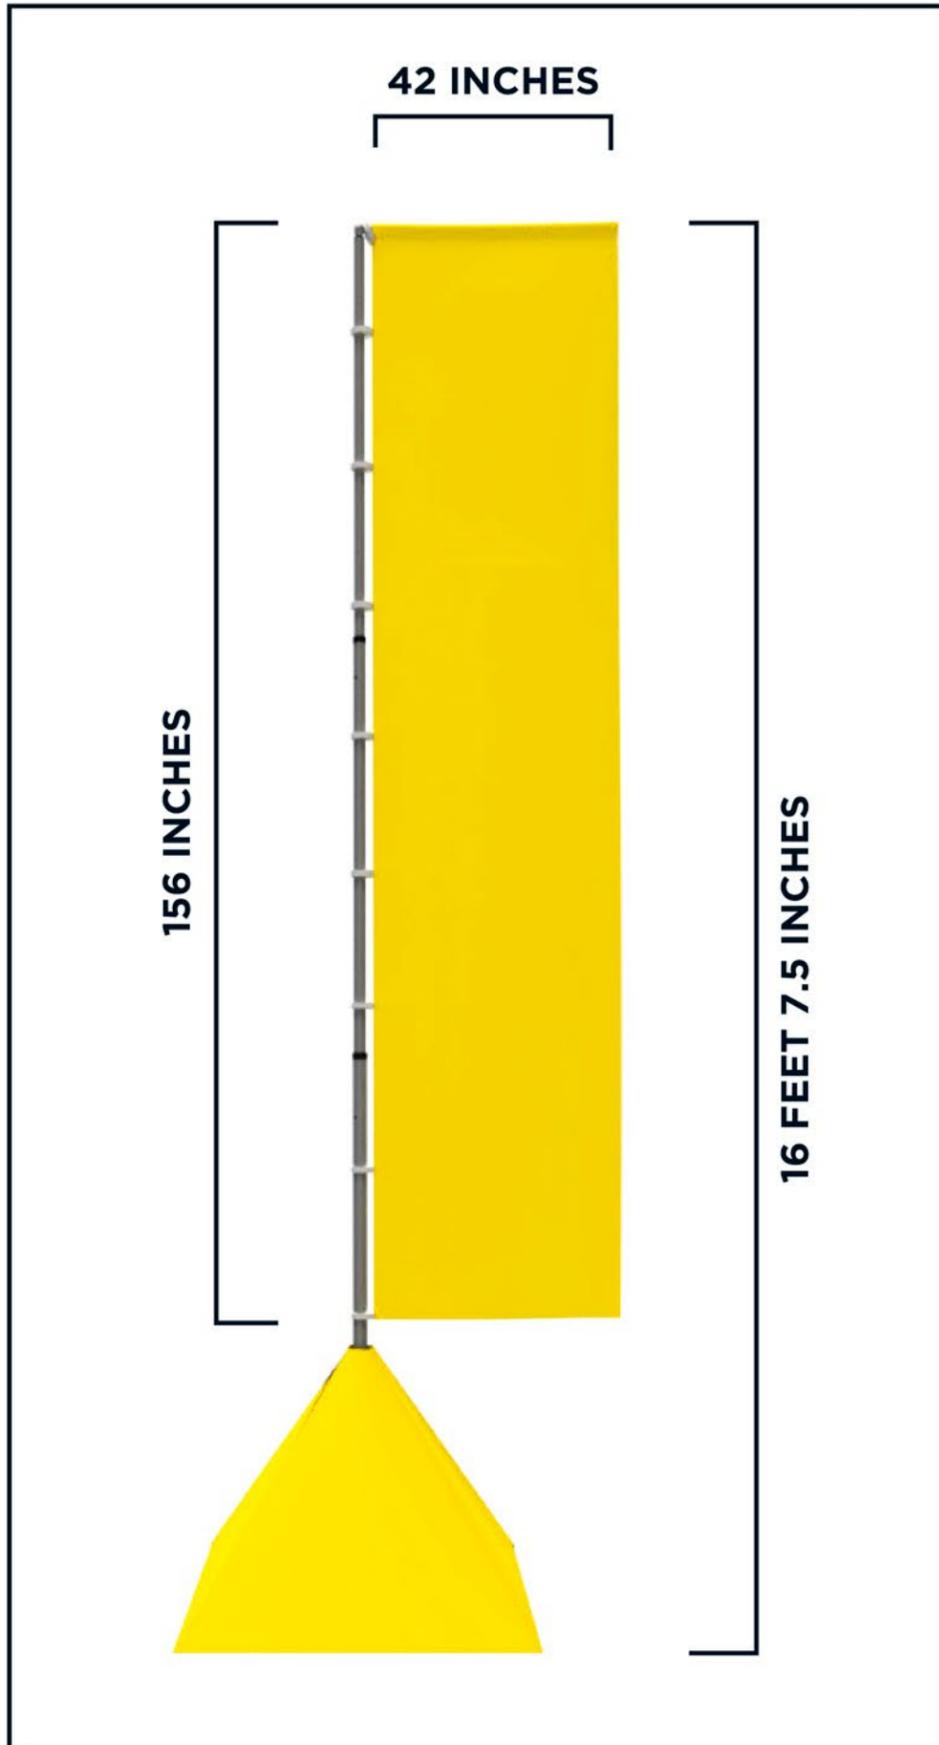

SEG (Silicone Edge Graphics) is printed fabric signage with a silicone beading that hugs the edges, fitting seamlessly into edgeless framing for a wrinkle-free display. It is often set up with LED lights inside the frame to make your signage glow on the show floor.

FALCONBOARD

FalconBoard is a durable and eco-friendly print substrate made from recycled paper-board. It can be easily cut, shaped, and mounted, making it suitable for a wide range of applications, including point-of-purchase displays, trade show graphics, and indoor signage.

ULTRABOARD

Ultraboard combines lightweight durability, high print quality, and versatility, making it an excellent choice for professional display and signage needs. Made with a foam core and laminated with polystyrene facings, Ultraboard is resistant to warping, dents, and moisture, ensuring long-lasting performance in both indoor and outdoor environments.

SINTRA

Sintra offers a combination of strength, print quality, and versatility, making it a premium choice for professional signage, displays, and promotional materials. It is commonly used for a variety of applications, including signage, trade show displays, point-of-purchase graphics, and custom-shaped cutouts.

COROPLAST

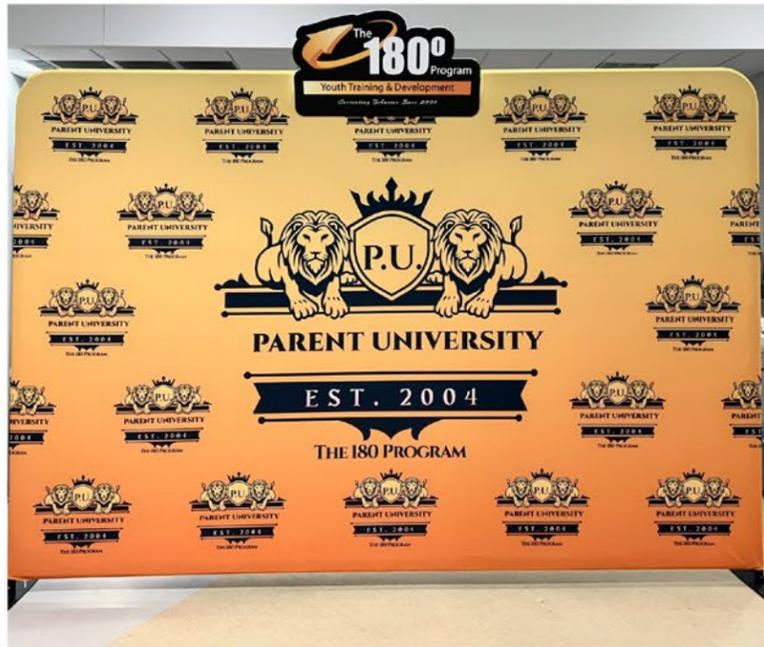

Coroplast is a lightweight, durable, and cost-effective corrugated plastic substrate widely used for a variety of print applications. One of the most cost-effective substrates available, Coroplast provides excellent value for high-volume print runs and budget-conscious projects, such as yard signs and event displays.

RIGID SIGNAGE

Custom Sizes & Shapes | Moisture Resistant | Double-sided Printing

Rigid signage is often used in A-frames, menu boards, and within retail storefronts, but our rigid signage can be made into custom shapes - and the ways it can be used are constrained only by your imagination. TentCraft's rigid signage solutions work with our custom pop-up canopies, media walls, and frame tents. You can quickly attach rigid signage to all parts of the tent, including the legs, valance, gable, and peak, creating something completely unique.
